

devices, fitting together a small number of components by bolting, gluing, or soldering, and repacking and packaging components together.

[CBP Dec. 07-81, 72 FR 58515, Oct. 16, 2007, as amended at CBP Dec. 10-29, 75 FR 52450, Aug. 26, 2010]

#### § 10.810 Originating goods.

(a) *General.* A good will be considered an originating good under the BFTA when imported directly from the territory of a Party into the territory of the other Party only if:

(1) The good is wholly the growth, product, or manufacture of one or both of the Parties;

(2) The good is a new or different article of commerce, as defined in § 10.809(i) of this subpart, that has been grown, produced, or manufactured in the territory of one or both of the Parties, is provided for in a heading or subheading of the HTSUS that is not covered by the product-specific rules set forth in General Note 30(h), HTSUS, and meets the value-content requirement specified in paragraph (b) of this section; or

(3) The good is provided for in a heading or subheading of the HTSUS covered by the product-specific rules set forth in General Note 30(h), HTSUS, and:

(i)(A) Each of the non-originating materials used in the production of the good undergoes an applicable change in tariff classification specified in General Note 30(h), HTSUS, as a result of production occurring entirely in the territory of one or both of the Parties; or

(B) The good otherwise satisfies the requirements specified in General Note 30(h), HTSUS; and

(ii) The good meets any other requirements specified in General Note 30, HTSUS.

(b) *Value-content requirement.* A good described in paragraph (a)(2) of this section will be considered an originating good under the BFTA only if the sum of the value of materials produced in one or both of the Parties, plus the direct costs of processing operations performed in one or both of the Parties, is not less than 35 percent of the appraised value of the good at the

time the good is entered into the territory of the United States.

(c) *Combining, packaging, and diluting operations.* For purposes of this subpart, a good will not be considered a new or different article of commerce by virtue of having undergone simple combining or packaging operations, or mere dilution with water or another substance that does not materially alter the characteristics of the good. The principles and examples set forth in § 10.195(a)(2) of this part will apply equally for purposes of this paragraph.

#### § 10.811 Textile or apparel goods.

(a) *De minimis*—(1) *General.* Except as provided in paragraph (a)(2) of this section, a textile or apparel good that is not an originating good under the BFTA because certain fibers or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in General Note 30(h), HTSUS, will be considered to be an originating good if the total weight of all such fibers or yarns is not more than seven percent of the total weight of that component.

(2) *Exception.* A textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good will be considered to be an originating good only if such yarns are wholly formed in the territory of a Party.

(b) *Textile or apparel goods put up in sets.* Notwithstanding the specific rules specified in General Note 30(h), HTSUS, textile or apparel goods classifiable as goods put up in sets for retail sale as provided for in General Rule of Interpretation 3, HTSUS, will not be considered to be originating goods under the BFTA unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed ten percent of the appraised value of the set.
